the tools catalog for manicure and pedicure

OLTON IS A CHOICE OF THE PROFESSIONALS

Our mission is to provide to beauty specialists the tools of the highest possible quality

OLTON

professional

OLTON is the family owned company manufacturing high quality tools for manicure, pedicure and cosmetology, specially designed for professionals.

OLTON brand has been found in 2006 as a small manufactory and earned recognition of nail stylists, many of whom are loyal to our brand to this day.

During this period of work earned trust of more than 50 000 nail stylists, having manufactured more than 570000 units of product. However, we do not pursue the quantity, emphasizing our efforts on the quality.

During the manufacturing process we strictly comply with technological requirements for steel processing that reveals the potential that it has. You get the product with the highest possible hardness for the steel grade used, which allows you to reduce the number of your visits to the sharpener master from 1/2 to 1/3 times!

Relax or work more productively while others are taking the tools for sharpening!

We are proud of the fact that our products help the professionals to reach higher results in their work ensuring safety and comfort for both for a client and a professional.

Our tools are not for everybody. Our tools are for the ones who value themselves.

Additionally, OLTON company is a production and store of a fine children clothing which is sewn with love and care from beautiful quality materials.
